

Ermias Lemesa Bayisa

Computer Engineer | IT Support Specialist | Hardware Engineer

Addis Ababa, Ethiopia | +251921615244 | ermias.xii@gmail.com

PROFESSIONAL SUMMARY

Proactive and detail-oriented IT Support Technician (B.Sc. Computer Engineering, CGPA: 3.42) with hands-on enterprise IT support experience. Currently serving as a Senior IT Support specialist, adept at installing/configuring hardware/OS, diagnosing complex network faults, managing user accounts/permissions, and resolving helpdesk tickets within SLAs. Proven track record of providing clear remote, chat, and in-person end-user support—ensuring smooth daily operations for multi-floor office environments. Experienced in creating detailed technical documentation, system diagrams, and user training materials. Developed an automated IT Helpdesk Ticketing System, demonstrating strong decision-making and workflow prioritization skills. Highly empathetic and collaborative, with a strong ability to understand end-user perspectives while maintaining professionalism under pressure.

EDUCATION

University of Gondar

B.Sc. in Computer Engineering

CGPA: 3.42

Aug 2021 – Aug 2025

PROFESSIONAL EXPERIENCE

ROTECH Information Technology

Present

Senior IT Support

- Diagnose and resolve network, printer, and hardware issues across multiple office locations.
- Configure VPNs, cross-network folder sharing, and Wi-Fi troubleshooting for multi-floor environments.
- Manage IT procurement, hardware evaluation, and vendor coordination.
- Deliver end-user training, technical documentation, and weekly reporting.

Addis Mesob – Bole Branch

Past

Hardware Engineer

- Install, configure, and maintain computer hardware systems.
- Diagnose and troubleshoot hardware and peripheral issues.
- Support printer setup, network connectivity, and system maintenance.
- Ensure operational continuity of IT equipment.
- Assist in technical documentation and system monitoring.

Ethiopian Artificial Intelligence Institute (EAll)

Past

AI/ML Intern

- Assisted in data collection, cleaning, and preprocessing for AI model development.
- Participated in training and evaluation of machine learning models.
- Contributed to AI-based chatbot development and deployment.
- Prepared technical documentation and research summaries.
- Collaborated with cross-functional technical teams.

MAJOR PROJECTS

KIRAY – Rental & Building Management System

Final Year Project

- Designed and developed a full-stack rental management platform.
- Implemented tenant management, payment tracking, and reporting modules.
- Designed relational database schema for structured data management.
- Integrated authentication and user role control.
- Focused on automation of rental operations and record-keeping.

MESOB IT Helpdesk Ticketing System

- Developed an automated IT support ticketing platform.
- Implemented issue tracking, prioritization, and lifecycle management.
- Designed backend logic for handling support workflows.
- Improved coordination between technical staff and users.

Real-Time Analytics Dashboard

- Developed a real-time data monitoring dashboard.
- Implemented live data streaming using WebSocket integration.
- Optimized data rendering performance.
- Built interactive visualization components for operational metrics.

Progressive Web Application (E-Commerce Platform)

- Built a PWA with offline capabilities and caching strategies.
- Designed responsive user interface and product management modules.
- Implemented performance optimization techniques.

Local Network Printer Information Collector

- Developed a Windows executable tool for scanning printers on a local network.
- Automated device discovery and configuration reporting.
- Designed for IT asset monitoring.

TECHNICAL & ANALYTICAL SKILLS

- **IT & Infrastructure:** IT Infrastructure Support, System Troubleshooting, Process Automation, Technical Documentation
- **Programming & Data:** Python Programming, Machine Learning Fundamentals, Database Design & SQL
- **Development:** Web Application Development, Strong Written & Verbal Communication

ADDITIONAL ATTRIBUTES

Strong analytical mindset | High accountability and professionalism | Respect for confidentiality | Team collaboration and adaptability | Digital learning agility
